

Farm Business Resilience Program

Grain Storage Field Day

Queensland Department of Agriculture and Fisheries invites you to a field day to help address your on-farm grain storage issues as a mean of improving your farm business resilience strategy.

Topics to be discussed:

- Grain storage types and their economics
- Hygiene and structural treatments
- Silo selection, site planning and construction considerations
- Aeration cooling and grain drying plus grain monitoring tools
- Identification and controlling of stored grain insects pests
- Practical demonstration of fumigation
- Grain marketing
