

Irrigation Insights 2024

Wednesday 24 and Thursday 25 July

Bringing experts, key thinkers and primary producers together to explore irrigated farm systems. Irrigation Insights is one of a kind, representing a collaborative effort between the grains, cotton, and dairy sectors. The program developed in consultation with farmers and industry experts delves into pivotal issues and opportunities for irrigated farm systems.

Rich River Golf Club
Moama

Wednesday 24 Gala Dinner 6:30pm
