

Contents

A Introduction

A.1	Crop overview	xiv
-----	---------------------	-----

1 Planning/Paddock preparation

1.1	Paddock selection	1
1.1.1	Soil types	2
	<i>Hardpans</i>	2
	<i>Crusting soils</i>	2
	<i>Acid soils</i>	2
	<i>Waterlogging</i>	3
1.2	Rotations and paddock history	3
1.3	Fallow weed control	4
1.4	Fallow chemical plant-back periods	5
1.5	Seedbed requirements	5
1.6	Soil moisture	6
1.6.1	Moisture stress during rosette formation and elongation	7
1.7	Yield and targets	7
1.7.1	Seasonal outlook	7
1.7.2	Fallow moisture	7
1.7.3	Nitrogen- and water-use efficiency	8
1.7.4	Estimating maximum yield per unit water use by location and nitrogen	9
	<i>Step 1</i>	9
	<i>Step 2</i>	9
	<i>Step 3</i>	9
1.8	Potential disease problems	10
1.9	Nematode status of paddock	11

2 Pre-planting

2.1	Varietal performance and ratings yield	1
2.1.1	Varieties for Victoria	2
2.1.2	Varieties for South Australia	4
2.1.3	Oil	5
2.1.4	Seed meal	5
2.2	Varieties	6
2.2.1	Conventional varieties	6
2.2.2	Triazine-tolerant varieties	6
2.2.3	Clearfield® (imidazolinone-tolerant) varieties	7
2.2.4	Roundup Ready® varieties	9
2.2.5	Roundup Ready®-triazine-tolerant varieties	10
2.2.6	Juncea canola (<i>Brassica juncea</i>)	10
2.3	Planting seed quality	10
2.3.1	Seed size	10
2.3.2	Canola establishment	12

2.3.3	Seed germination and vigour	12
	<i>Harvest timing</i>	13
	<i>Seed chlorophyll</i>	13
	<i>Seed handling</i>	13
2.3.4	Seed storage.....	13
2.3.5	Safe rates of fertiliser sown with the seed	14

3 Planting

3.1	Seed treatments.....	1
	3.1.1 Insecticide treatments.....	1
	3.1.2 Fungicide treatments	1
3.2	Seed placement	1
3.3	Time of sowing	2
	3.3.1 Retained seed	3
	3.3.2 Canola growth and development—impact of time of sowing (TOS) and seasonal conditions	3
	<i>Methodology</i>	4
	<i>Description of varieties used in 2014 time of sowing trials</i>	4
	<i>Results and discussion</i>	5
	<i>Conclusion</i>	9
3.4	Targeted plant population	10
	3.4.1 Calculating seed requirements	11
	3.4.2 Row spacing	12
	3.4.3 Managing low plant establishment	12
3.5	Sowing depth.....	12
3.6	Sowing equipment.....	13
	3.6.1 Alternative sowing techniques.....	14

4 Plant growth and physiology

4.1	Canola types.....	1
	4.1.1 Conventional	1
	4.1.2 Triazine-tolerant canola	1
	4.1.3 Hybrids.....	2
	4.1.4 Specialty canola: high oleic–low linolenic.....	2
	4.1.5 Imidazolinone-tolerant canola	2
	4.1.6 Condiment (Indian) mustard.....	2
	4.1.7 Juncea canola (<i>Brassica juncea</i>).....	2
	4.1.8 Roundup Ready® canola.....	3
	4.1.9 Industrial mustard	3
	4.1.10 Winter types for grazing	3
4.2	Canola development.....	3
	4.2.1 Why know about canola development?.....	4
4.3	Plant growth stages	5
	4.3.1 Germination and emergence (stage 0 [0.0–0.8])	5
	4.3.2 Leaf production (stage 1 [1.00–1.20])	6
	4.3.3 Stem elongation (stage 2 [2.00–2.20])	6

4.3.4	Flower bud development (stage 3 [3.0–3.9])	7
4.3.5	Flowering (stage 4 [4.1–4.9])	7
4.3.6	Pod development (stage 5 [5.1–5.9])	8
4.3.7	Seed development (stage 6 [6.1–6.9])	8
4.3.8	Environmental stresses impacting yield and oil content	10
4.4	The drivers of plant phenology	11
4.4.1	Temperature	11
	<i>Temperature and vegetative growth</i>	11
	<i>Development of the plant in response to temperature</i>	12
	<i>Daylength</i>	13
	<i>What does all this mean?</i>	13

5 Nutrition and fertiliser

5.1	Crop removal rates	1
5.2	Soil testing	1
5.3	Nitrogen	1
5.3.1	Estimating nitrogen requirements	3
	<i>Example</i>	4
5.3.2	Diagnosing nitrogen deficiency in canola	4
	<i>What to look for</i>	6
	<i>What else could it be?</i>	6
	<i>Where does it occur?</i>	6
	<i>Management strategies</i>	6
5.4	Phosphorus	7
5.4.1	Role and deficiency symptoms	7
	<i>Fertiliser placement</i>	8
	<i>Phosphorus requirements</i>	8
5.5	Sulfur	9
5.5.1	Role and deficiency symptoms	9
5.5.2	Soil sulfur	10
5.6	Potassium	10
5.7	Boron	11
5.7.1	Role and toxicity and deficiency symptoms	11
5.7.2	Fertiliser requirements	12
5.8	Micronutrients	12
5.8.1	Zinc	12
	<i>Deficiency symptoms</i>	13
	<i>Fertiliser strategies</i>	13
5.8.2	Molybdenum	14
	<i>Role and deficiency symptoms</i>	14
	<i>Fertiliser requirements</i>	14
5.8.3	Magnesium	14
5.8.4	Calcium	14
5.9	Toxicity	15
5.10	Nutrition effects on the following crop	16

6 Weed control

6.1	Key points:	1
6.2	Weed density	2
6.3	Weed spectrum and herbicide resistance.....	2
6.3.1	Herbicide resistance in Australian weeds	3
6.4	Weed management in differing scenarios.....	5
6.4.1	Canola following pasture	5
6.4.2	Canola in a continuous cropping sequence	5
6.4.3	Triazine-tolerant canola.....	5
6.4.4	Imidazolinone-tolerant canola.....	6
6.4.5	Roundup Ready® canola.....	6
6.5	Clethodim damage.....	6

7 Insect control

7.1	Integrated pest management.....	2
7.1.1	Key IPM considerations for canola	2
7.2	Incidence of insect pests in canola.....	4
7.3	Earth mites	7
7.3.1	Redlegged earth mite.....	8
	<i>Description</i>	8
	<i>Seasonal development</i>	8
	<i>TIMERITE® for management of redlegged earth mite</i>	8
7.3.2	Blue oat mite	9
	<i>Description</i>	9
	<i>Seasonal development</i>	9
	<i>Impact</i>	10
7.3.3	<i>Balaustium</i> mites.....	10
	<i>Description</i>	10
	<i>Seasonal development</i>	10
	<i>Impact</i>	11
	<i>Management</i>	11
	<i>Distribution</i>	11
	<i>Monitoring</i>	12
7.3.4	<i>Bryobia</i> mites	12
	<i>Description</i>	12
	<i>Management</i>	13
7.4	Lucerne flea	13
7.4.1	Description.....	13
7.4.2	Seasonal development and symptoms.....	14
7.4.3	Impact	14
7.4.4	Management	14
7.5	Slugs	15
7.5.1	Description.....	15
7.5.2	Seasonal development and symptoms.....	15
7.5.3	Impact	16
7.5.4	Management.....	16

7.6	Diamondback moth	16
7.6.1	Appearance.....	16
7.6.2	Seasonal development and symptoms.....	17
7.6.3	Impact.....	18
7.6.4	Management.....	18
	<i>Monitoring and thresholds</i>	18
	<i>Pesticides</i>	18
	<i>Natural enemies</i>	19
7.7	Aphids	19
7.7.1	How to identify key aphids.....	19
	<i>Turnip aphid</i>	19
	<i>Cabbage aphid</i>	20
	<i>Green peach aphid</i>	20
7.7.2	Aphids in canola.....	20
	<i>Impact</i>	20
	<i>Monitoring and thresholds</i>	21
	<i>Management</i>	22
7.7.3	Resistance management strategies for green peach aphid	23
7.8	Rutherglen bugs.....	23
7.8.1	Description.....	23
7.8.2	Impact.....	24
7.8.3	Monitoring and thresholds.....	24
7.8.4	Management.....	25
	<i>Cultural control</i>	25
	<i>Pesticides</i>	25
	<i>Natural enemies</i>	25
	<i>Communication</i>	25
7.9	<i>Helicoverpa punctigera</i> (native budworm)	26
7.9.1	Background.....	26
7.9.2	Description.....	26
	<i>Eggs</i>	26
	<i>Larvae and pupae</i>	26
	<i>Adults</i>	27
7.9.3	Importance.....	27
7.9.4	Seasonal development and symptoms.....	27
	<i>Adult migration and feeding</i>	27
	<i>Egg laying</i>	28
	<i>Larval feeding and pupal development</i>	28
7.9.5	Impact.....	28
7.9.6	Monitoring.....	28
7.9.7	Management.....	29
	<i>Natural control</i>	29
	<i>Decision to spray</i>	29
7.10	Snails	29
7.10.1	Description.....	29
7.10.2	Symptoms.....	30
7.10.3	Impact.....	30

7.10.4 Control	30
7.11 Soil pests	30
7.11.1 Wireworms and false wireworms	30
<i>Importance</i>	30
7.11.2 False wireworms	30
<i>Description</i>	30
<i>Seasonal development and symptoms</i>	32
<i>Impact</i>	32
<i>Sampling and detection</i>	33
<i>Control</i>	33
7.11.3 True wireworms	33
<i>Description</i>	33
<i>Seasonal development and symptoms</i>	33
<i>Impact</i>	34
<i>Sampling, detection and control</i>	34
7.11.4 Weevils	34
7.11.5 Earwigs	35
<i>Seasonal development</i>	36
<i>Impact</i>	36
<i>Management—windrowing and harvesting</i>	37
<i>Monitoring</i>	37
7.11.6 Black Portuguese millipedes	37
<i>Description</i>	38
<i>Seasonal development and symptoms</i>	38
<i>Impact</i>	39
<i>Management</i>	40
7.11.7 Slaters	40
<i>Description and development</i>	40
<i>Species</i>	41
<i>Symptoms</i>	42
<i>Impact</i>	42
<i>Management</i>	42

8 Nematode management

8.1 Cereal cyst nematodes	1
8.2 Root-lesion nematodes	2
8.2.1 What are nematodes?	3
8.2.2 Management of RLN	4

9 Diseases

9.1 Blackleg	2
9.1.1 Symptoms and disease cycle	2
9.1.2 Management	4
<i>Choose a variety with adequate blackleg resistance</i>	4
<i>Isolate this year's crop from last year's canola stubble</i>	4
<i>Consider fungicide use</i>	5
9.1.3 Four steps to beating blackleg	6

<i>Step 1. Determine your farm's risk</i>	6
<i>Step 2. Determine each crop's blackleg severity in spring</i>	6
<i>Step 3. Management practices can reduce the risk of blackleg infection</i>	7
<i>Step 4. Blackleg resistance groups</i>	8
9.1.4 Blackleg rating	8
9.2 Sclerotinia stem rot	9
9.2.1 Symptoms.....	10
9.2.2 Disease cycle	10
9.3 Clubroot in canola and <i>B. juncea</i>	11
9.3.1 Symptoms.....	11
9.3.2 Disease cycle	12
9.3.3 Management.....	12
9.4 <i>Rhizoctonia</i> , damping-off.....	12
9.4.1 Symptoms.....	13
9.4.2 Disease cycle.....	13
9.4.3 Management.....	13
9.5 Downy mildew, powdery mildew	13
9.5.1 Symptoms.....	14
9.5.2 Disease cycle	14
9.5.3 Management.....	14
9.6 White leaf spot	14
9.6.1 Symptoms.....	15
9.6.2 Disease cycle	15
9.6.3 Management.....	15
9.7 White rust or staghead.....	15
9.7.1 Symptoms.....	16
9.7.2 Disease cycle	16
9.7.3 Management.....	16
9.8 Alternaria leaf and pod spot.....	16
9.8.1 Symptoms.....	17
9.8.2 Disease cycle.....	17
9.8.3 Management.....	17
9.9 Managing viruses.....	17
<i>What to look for</i>	18
9.9.1 Disease cycle.....	18
9.9.2 Management.....	19

10 Plant growth regulators and canopy management

11 Crop desiccation

11.1 Weedmaster DS	1
11.2 Chemical desiccation.....	2

12 Harvest

12.1 Windrowing	1
12.1.1 When to windrow	3

12.2	Direct heading	4
12.3	Comparison of windrowing and direct heading	5
12.3.1	Windrowing	7
	<i>Timing</i>	8
12.3.2	Direct heading	8
	<i>Timing</i>	9
12.3.3	Desiccation followed by direct heading	9
	<i>Timing</i>	9
12.4	Wet harvest issues and management	10
12.5	Receival standards	10

13 Storage

13.1	Canola storage at a glance	1
13.2	Storing oilseeds	2
13.3	Seed quality and moisture content at storage	2
13.4	Types of storage	3
13.5	Hygiene—structural treatment	4
13.6	Aeration	4
13.6.1	Aeration cooling	5
13.6.2	Automatic controllers	5
13.6.3	Operation of aeration fans	5
13.6.4	Aeration drying	5
13.6.5	Heated air drying	6
13.6.6	Fire risk	6
13.7	Insect pest control	7
13.8	Further reading	8

14 Environmental issues

	<i>Catastrophic events</i>	1
	<i>GRDC's new approach to frost</i>	1
14.1	Frost	2
14.1.1	Frost damage in crops—where to from here?	4
	<i>What causes frost?</i>	5
	<i>Frost effect on the plant</i>	5
	<i>Are frosts becoming more frequent?</i>	5
	<i>Key management strategies</i>	6
	<i>The importance of sowing time and flowering dates</i>	7
14.1.2	Issues that can be confused with frost damage	7
14.2	Waterlogging and flooding	9
14.2.1	Symptoms of waterlogging	9
14.2.2	Effect on yield	9
14.2.3	Germination	10
14.2.4	Seedfill	10

15 Marketing

15.1	Selling principles	1
15.1.1	Be prepared	1
	<i>When to sell</i>	2
	<i>How to sell</i>	2
15.1.2	Establishing the business risk profile—when to sell	2
	<i>Production risk profile of the farm</i>	3
	<i>Farm costs in their entirety, variable and fixed costs (establishing a target price)</i>	3
	<i>Income requirements</i>	4
	<i>Summary</i>	5
15.1.3	Managing your price—how to sell	5
	<i>Methods of price management</i>	5
	<i>Summary</i>	7
15.1.4	Ensuring access to markets	8
	<i>Storage and logistics</i>	8
	<i>Cost of carrying grain</i>	9
	<i>Summary</i>	10
15.1.5	Executing tonnes into cash	10
	<i>Set up the tool box</i>	10
	<i>How to sell for cash</i>	10
	<i>Counterparty risk</i>	13
	<i>Relative commodity values</i>	14
	<i>Contract allocation</i>	15
	<i>Read market signals</i>	15
	<i>Summary</i>	15
15.2	Southern canola—market dynamics and execution	16
15.2.1	Price determinants for southern canola	16
15.2.2	Ensuring market access for southern canola	17
15.2.3	Executing tonnes into cash for southern canola	18
15.2.4	Risk management tools available for southern canola	19
