FREE Pre-Seeding Frost Workshop

Farmers and advisors are invited to a hands on workshop to hear the latest frost research findings and strategies to minimise the impact of frost on profit. Farmers attending have the opportunity to develop a personal frost management plan with input and guidance from the experts in the room.

Presenters will include the State's leading frost researcher and frost strategy consultants and attending local agronomists. Growers will consider local climate data and get an opportunity to share their experiences .

Farmers attending are encouraged to bring your Yield & Elevation maps and 2021 Paddock Plans. Using the information presented on the day, along with input from the experts, participants will leave the workshop with a plan employing the latest tools to reduce the impact of frost on their profitability.

Workshop Instructors:

Ben Biddulph - Leader, DPIRD/GRDC National Frost Initiative "Management Node"

Garren Knell - Consult Ag Frost Management Strategies

Facilitator - Greg Warren Agronomy Manager Farm and General
