

Mastering fungicide resistance management with AFREN: strategies for success

Calling all growers and agronomists to join Nick Poole from FAR Australia for a workshop hosted by the Australian Fungicide Resistance Extension Network (AFREN), dedicated to addressing the pressing issue of fungicide resistance in our region. Gain valuable insights and participate in discussions on the latest management practices shaping the future of the Australian grains industry.

Nick will cover fungicide resistance topics aligned with GRDC's AFREN initiative. He will provide practical management strategies and advice on fungicide use in cereals, including product selection, application rates, and timings. Learn how to customise these strategies to effectively manage fungicide resistance.

There will be an opportunity to discuss diseases further with practical components including plants to examine, offering a dynamic perspective to build grower and agronomist confidence.

Take advantage of the chance to network with Nick and other attendees while enjoying complimentary refreshments.

Secure your spot today at this free, insightful workshop, supported by the GRDC-backed initiative, AFREN.

Don't miss this opportunity to deepen your understanding and contribute to sustainable fungicide practices in Australian agriculture.

WHERE AND WHEN

VENUE:

Bannockburn & District Bowling Club
65 Burnside Road
BANNOCKBURN, VIC, 3331

WHEN: Friday 14 June 2024.

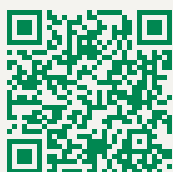

TIME: 9am to 12pm.

Morning tea and lunch provided.

PROGRAM

9:00am	AFREN – Fungicide Modes of Action: Understanding Vulnerability to Resistance Explore the mechanisms of fungicide resistance and why it poses a challenge in agricultural practices. Learn about the different modes of action and how they influence resistance development.
9:30am	Fungicide Resistance Overview Gain a comprehensive overview of fungicide resistance, including its prevalence, impact on crop yield, and the importance of integrated management approaches.
10:00am	Morning tea Enjoy a break and network with fellow participants over provided refreshments.
10:30am	AFREN - Fungicide Resistance Five and Key Management Strategies Learn about AFREN's Fungicide Resistance Five approach and key strategies for managing fungicide resistance. Explore practical solutions for sustainable crop protection.
11:00am	Fungicide Management Strategies for Cereals: Products, Rates and Timings taking account of Fungicide Resistance Delve into specific fungicide management strategies for cereals, including product selection, application rates, and timings. Understand how to tailor these strategies to mitigate fungicide resistance effectively.
12:00pm	Lunch with close Reflect on the day's insights over lunch as you network with fellow participants.
