

SUMMER WEED ISSUES

CONSULTATION MEETING WITH
SE QUEENSLAND GRAIN GROWERS
& AGRONOMISTS

Wednesday 10 July 2024 | Dalby QLD

This meeting will introduce a new 2-year GRDC funded project which aims to better understand regional weed issues and provide timely results on field trials conducted on those weeds.

AGENDA

- Introduction to the NGN project - 'Developing control strategies for key problem weeds for SE QLD' – Paul Castor MCA Agronomy
- Plans for project roll out - Brendan Burton
- Attendees will be asked to raise and discuss their key SUMMER weed issues which require improved management solutions
- Attendees will also be asked to prioritise the weed issues raised during the session for field trial work over 2024-25
- Lawrie Price from NGA will also present data from their 2023-24 trial program.

Note: This is an open grains industry event - please forward this invitation to anyone interesting in exploring better weed management options in SE Queensland.
