STORM OF RESISTANCE

CROP PROTECTION FORUM

TIME	SPEAKER	AFFILIATION	THEME
SESSION 2: Insights into resistance development and control			
Chair: Prof Bhagirath Chauhan, University of Queensland			
11:15	Dr Steve Simpfendorfer	NSW Department of Primary Industries and Regional Development	Disease management starts with correct diagnosis - fungicides DO NOT fix frost damage
11:45	Prof Christopher Preston	University of Adelaide	Cropping with less paraquat and still deliver an efficacious double-knock
12:15	Dr Evatt Chirgwin	Cesar Australia	Insecticide-resistant aphids in grain crops: where have they spread, and how can we best manage them?
12:45	NEW RESEARCHERS		Speed talks session
13:00	LUNCH		
SESSION 3: Delivering field solutions			
Chair: Lisa Kirkland, Cesar Australia			
14:00	Dr Leon Hodgson	Centre for Crop and Disease Management (CCDM)	PRIM Tool - Visualising data for fungicide resistance with AAGI
14:20	Prof Ken Flower	Australian Herbicide Resistance Initiative (AHRI)	Utilising new technology for strategic weed control
14:50	Philip Armytage	AgBiTech Australia	Fall Armyworm: A startling new pest with an ages-old management problem
15:20	BREAK		
15:30	AGRONOMY PANEL 2		Strategies, solutions and future responses
16:15	Prof Mark Gibberd	Centre for Crop and Disease Management (CCDM)	Wrap-up
16:30	NETWORKING DRINKS		<i>The Highfields Tavern</i>
