

# SUMMER WEED ISSUES

CONSULTATION MEETING WITH  
SW QUEENSLAND GRAIN GROWERS  
& AGRONOMISTS

Tuesday 9 July 2024 | Goondiwindi QLD

**This meeting will introduce a new 2-year GRDC funded project which aims to better understand regional weed issues & provide timely results on field trials conducted on those weeds.**

## AGENDA

- Introduction to the NGN project- 'Developing control strategies for key problem weeds for SW QLD' – Paul Castor MCA Agronomy
- Plans for project roll out - Brendan Burton
- Attendees will be asked to raise and discuss their key SUMMER weed issues which require improved management solutions
- Attendees will also be asked to prioritise the weed issues raised during the session for field trial work over 2024-25
- Lawrie Price from NGA will present data from their 2023-24 trial program.

**Note:** This is an open industry event- please forward this invitation to anyone interesting in exploring better weed management options in SW Queensland.
