

GRAINS RESEARCH UPDATE

Bute Sporting Club, North West Terrace

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Developing strong lentil agronomy foundations**
Develop stronger lentil agronomic foundations this season. Jordan provides insight into effectively managing pod drop and key agronomic messages from local trial work.
*Jordan Bruce,
Tregove
Consulting*
- ▶ **Effective management of broadleaf weeds**
Level up your weed management skills by tackling broadleaf weeds head on. Navneet covers crop safety and broad leaf weed control strategies in lentils for a variety of herbicides.
*Navneet
Aggarwal,
SARDI*
- ▶ **An update on powdery mildew and stripe rust**
Powdery mildew and stripe rust have been an ongoing challenge for SA wheat growers, particularly in the last two years. With fungicide resistance on the rise, there is a need to ensure you have the right management strategy in place. Sam provides key insights from local trials on effectively managing powdery mildew and stripe rust.
*Sam Tregove,
Tregove
Consulting*
- ▶ **Key profit levers for sandy soil amelioration**
Unveil the levers for profit when ameliorating sandy soils. Therese explains how to best tackle sandy soil amelioration by having a deeper understanding of the constraint being targeted from a whole farm perspective.
*Therese
McBeath,
CSIRO*
- ▶ **Making more from better seasons**
Kenton identifies key strategies to unlock the potential of cereal crops in higher rainfall years. Discover how the photothermal quotient and early vigor play a part in maximising barley yields.
*Kenton Parker,
CSIRO*

\$30 per person (GST inc.) Morning tea, lunch and proceedings included.
Extra proceedings: \$30 posted inc. GST
