

SPRING FIELD DAY: *BUNDALONG*

Friday 13th October 2023

8.30am to 11.30am (including breakfast)

Lanes Road, Bundalong South, 3730

GPS: -36.087446, 146.178759

Signposted off Lanes Road

Kindly hosted by: Adam Inchbold

FAR Australia invites you to attend our Bundalong Spring Field Day where we will showcase a range of GRDC investments including: 1. Maximising farming systems benefits from grain legume production in Victoria, and 2. Benefits of animal manures for crop nutrition in NE Victoria.

FAR Australia presenters include Tom Price, Ben Morris and Nick Poole.

Come and inspect a variety of research trials where topics of discussion will include:

- Faba bean disease management – varieties and fungicide strategies
- Nutritional needs for high yielding faba beans – Additional nitrogen and phosphorus as well as manures and trace elements. Can we make up for poor biological activity?
- Canopy management strategies for high yielding faba beans – Seeding rates and plant growth regulators.
- Benefits of animal manures to maintain a fertile farming system.
