Farmers and advisors are invited to a hands on workshop to hear the latest frost research findings and strategies to minimise the impact of frost on profit. Farmers attending have the opportunity to develop a personal frost management plan with input and guidance from the experts in the room.

Presenters will include the State's leading frost researcher, frost strategies consultant, grower group executive officer, a grower sharing their experiences and local agronomists. Farmers attending are encouraged to bring your Yield & Elevation maps and 2021 Paddock Plans. Using the new information presented on the day, along with input from the experts in the room, participants will leave the workshop with a plan employing the latest tools to reduce the impact of frost on their profitability.

Workshop Instructors:

- Ben Biddulph - Leader, DPIRD/GRDC National Frost Initiative "Management Node"
- Garren Knell - Consult Ag Frost Management Strategies
- Ashton Gray - a Lakes farmer's experience with implementation strategies
- Facilitator - Jordy Medlen (ConsultAG))
