tina.brock@agcommunicators.com.au

Growers are invited to attend the dry-time regional forum which offers practical advice on production decisions such as nutrition budgeting and application, soil, fallow and herbicide residue management and broader farming system decisions. A session will also cover sheep management, such as which sheep to keep, when to join and feeding strategies including confinement feeding and feed budgeting. The workshop will also explore business and financial strategies to assist cash-flow planning, debt management, and accessing and utilising government services.

Presenters will provide locally relevant content and will include panel sessions to get your questions answered. Each attendee will receive a resource kit with supporting information.
