THURSDAY 20TH
FEBRUARY 2020

GRAINS RESEARCH UPDATE

Corowa RSL Club, 30 Betterment Parade

9.00 am to 1.30 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Hitting production targets in the UK amidst a highly regulated environment**
This presentation contributes to the discussion of how advisers and growers may have to manage if restrictions and regulations around pesticide use follow the UK.
*Keith Norman
Keith Norman
Consultancy Ltd (UK)*
- ▶ **Cover crops and their impacts on the farming system – what does the local data suggest**
Evidence of how cover crops are impacting the farming system compared to 'tried and tested' management practices.
*Col McMaster
NSW DPI*
- ▶ **Riverine Plains research in progress**
Research update including results from the 'Managing subsoil acidity' project
*Cassandra Scheffe
Riverine Plains Inc.*
- ▶ **Legacy effects of N nutrition and hay versus grain crop choice**
Long-term value of ground cover/stubble compared with its removal through hay and a heads up on the N response, recovery in subsequent years and mid-row banding work currently being undertaken.
*Graeme Sandral
NSW DPI*
- ▶ **Latest strategies in canola disease control**
Update on seed treatment and fungicide options in response to recent changes in canola agronomy and management and the resulting impact on blackleg disease.
*Steve Marcroft
Marcroft Grains
Pathology*
- ▶ **Drivers of yield stability in wheat and barley – picking a winner in variable seasons**
What are the drivers of yield stability in barley and wheat as indicated by variety performance across a number of challenging seasons.
*Felicity Harris
NSW DPI*
