GRAINS RESEARCH UPDATE ONLINE

KIMBA

Live stream from 9.30am to 11.00am ACST (10.00am AEST)

WEDNESDAY 29TH JULY 2020

Live Question and Answer sessions with:

John Broster, *Charles Sturt University*

Effectiveness of stripper front systems to conserve moisture and reduce soil temperatures - is there a yield advantage in the following crop?

Richard Konzag, *Konzag Grains*

Implementation of the strip disc system - what are the advantages and challenges?

Richard will answer questions relating to weed control, pests, crop rotations, grain harvest and more from over five years experience of running a strip disc system.

Gerard McMullen, *National Working Party on Grain Protection*

Understanding the trade issues of chemical residues/MRLs - what are the market requirements?

Therese McBeath, *CSIRO*

Perils of deep ripping on sandy soils - what can be learnt from hindsight?

Discussion to include crop establishment, seeding depth, seedbed management and erosion.
