

**MINYIP
VICTORIA
THURSDAY 13
JULY 2023**

GRAINS RESEARCH UPDATE

Minyip Golf Club, Golf Course Road, Minyip

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Best practice management of slugs and snails**
Slugs have been particularly active in many areas during early sowing 2023. What more have we learnt about this pest from experience? Michael's presentation will discuss key takeaways regarding the control and prevention of slugs and snails and the strategies for managing these invasive pests.
*Michael Nash,
Whatbugsyou*
- ▶ **Seasonal outlook! what's on the horizon? and how to plan accordingly.**
With a dry forecast looming, a question on all grower's minds is what are the climatic risks this season? Dale gives an overview of the projected seasonal outlook and provides insights into decision-making in tougher seasonal conditions.
*Dale Grey,
Agriculture
Victoria*
- ▶ **An update on chemical restrictions on export grain and the trade ramifications for local farmers**
Exploring the implications of the EU's recent restrictions on Haloxyfop Maximum Residue Limits (MRL's) in Canola and Pulses, what will be the impacts on trade at the farm gate level? Gerard provides an update on the recent changes in legislation and how to best navigate this ever-changing environment.
*Gerard
McMullen,
Chair of National
Working Party on
Grain Protection*
- ▶ **Receiving more bang for your buck with Canola establishment**
This years seasonal conditions have proven to be problematic for canola establishment, Join Colin in discussing the issues associated and how best to maximise crop potential given the excessive cost outlay.
*Colin McMaster,
NSW DPI*
- ▶ **Developing strategies for effective disease management. Identifying the risks and key learnings from last season.**
With last season fresh in all growers minds, a timely reminder of the risks associated with disease carryover and the importance of an integrated disease management strategy. Josh & Hari identifies the potential risks for this season and the importance of being proactive instead of reactive.
*Josh Fanning &
Hari Dadu,
Agriculture
Victoria*
