

LAKE GRACE

GRDC GROWER FORUMS

GRDC welcomes all involved in the grains industry to:

GRDC Grower Forums

Lake Grace Sportsmans Club, Lake Grace
2nd August 2021, 4-7pm

Guest Speaker: Ben Whisson (ConsultAg)

Cemented lateritic gravels are a common limitation to crop growth and contribute to increased wear and tear on seeding machinery. Renovation (via options such as reefinancing) has solved some of these issues and allowed under performing or non-arable areas of land to become more productive..... but how do growers manage crop nutrition following renovation to maximise the return on investment?

Come and hear from Ben Whisson as he talks farm scale nutrition trials after last years work, and the economics around the return on investment of ameliorating these areas.

Refreshments and meal provided

Grab the opportunity to chat to GRDC staff and Western Panel; & to discuss opportunities and constraints which are relevant to the grains industry

Please RSVP for catering purposes to:
