GRAINS RESEARCH UPDATE

Memorial Hall, 63 Railway Terrace

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Leverage protein maps for profitability**
Learn how to effectively leverage protein maps. Ed from CropScanAg will provide an update on the technology available for protein mapping and where to start when analysing paddock data.
*Edward Scott,
CropScanAg*
- ▶ **Strategies for sandy soil amelioration and crop establishment**
Adopt strategies for sandy soil amelioration to alleviate soil constraints. Mel from Soil Function Consulting will provide key insights developed from local based data.
*Mel Fraser,
Soil Function Consulting*
- ▶ **Strategies for managing powdery mildew**
Powdery mildew has been a persistent challenge for the district. Stuart from Trengove Consulting provides an update on fungicide resistance surveys and the implication of resistance for disease management strategies.
*Stuart Sherriff,
Trengove Consulting*
- ▶ **Innovative strategies for narrowleaf weed management**
Take a proactive approach to the management of problematic grass weeds. Peter from Plant Science Consulting will provide an update on resistance and management strategies for controlling barley grass and ryegrass.
*Peter Boutsalis,
Plant Science Consulting*
- ▶ **Developing pulse agronomy fundamentals**
Discover the latest varietal and herbicide options when growing pulses. Michael and Jason outline the agronomic fundamentals when growing pulses on a variety of soil types.
*Michael Moodie &
Jason Brand,
Frontier Farming*

\$30 per person (GST inc.) Morning tea, lunch and proceedings included.
Extra proceedings: \$30 posted inc. GST
