

Soil biology workshop – Grenfell

Join us for an engaging, hands-on workshop with Simon Mattsson from Soil Land Food!

Simon, a mixed cropping farmer and soil biology expert, will lead this practical workshop designed to help you enhance your soil health.

Topics covered:

- the importance of soil biology for your farm
- understanding microbes and organisms in soil
- identifying the biology in your soil
- practical ways to improve soil biology, including biological products.

Workshop highlights:

- field walk – observe and discuss soil health
- soil pit exploration – gain hands-on experience with soil biology in action.
