A Introduction

A.1	Crop overview	XV
	<i>Production</i>	xix
	<i>Exports</i>	xx
	<i>Processing</i>	xx

1 Planning/Paddock preparation

1.1	Paddock selection.....	1
1.1.1	Soil types	2
	<i>Hardpans</i>	2
	<i>Crusting soils</i>	2
	<i>Acid soils</i>	3
	<i>Sodic subsoils</i>	3
1.2	Rotations and paddock history	3
1.2.1	Profitable paddock rotations in WA's wheatbelt.....	4
	<i>Common rotations</i>	5
	<i>Rotation profitability</i>	5
1.3	Herbicide plant-back periods.....	6
1.4	Seedbed requirements	8
1.5	Soil moisture.....	8
1.5.1	Moisture stress during rosette formation and elongation	9
1.5.2	How much moisture is enough to successfully establish April-sown canola?	10
	<i>Key messages</i>	10
	<i>Aims</i>	10
	<i>Method</i>	11
	<i>Results</i>	11
	<i>How much rainfall?</i>	14
	<i>Conclusion</i>	15
1.6	Yield and targets	15
1.6.1	Seasonal outlook.....	16
1.6.2	Fallow moisture	16
1.6.3	Nitrogen- and water-use efficiency	16
1.6.4	Estimating maximum yield per unit water use by location and nitrogen.....	17
	<i>Step 1</i>	17
	<i>Step 2</i>	17
	<i>Step 3</i>	17
1.7	Potential disease problems	18
1.8	Nematode status of paddock.....	19

2 Pre-planting

2.1	Varietal performance and ratings yield	1
2.1.1	Varieties for WA	1
2.2	Agzones	2
2.3	National Variety Trials Project yield and oil information	3
2.4	Commercial and agronomic information	7
2.4.1	Open-pollinated and hybrid canola	7
	<i>Blackleg rating</i>	7
	<i>Genetically modified (GM) canola</i>	7
2.4.2	Oil	10
2.4.3	Seed meal	11
2.5	Planting seed quality	11
2.5.1	Seed size	11
2.5.2	Diagnosing poor-quality seed in canola	12
	<i>What to look for</i>	12
	<i>What else could it be?</i>	13
	<i>Where did it come from?</i>	13
	<i>Management strategies</i>	13
	<i>How can it be monitored?</i>	13
2.5.3	Retaining seed	13
2.5.4	Canola establishment	15
	<i>Canola re-seeding: Is it worth it?</i>	15
2.5.5	Seed germination and vigour	17
	<i>Harvest timing</i>	18
	<i>Seed chlorophyll</i>	18
	<i>Seed handling</i>	18
2.5.6	Seed storage	18
2.5.7	Safe rates of fertiliser sown with the seed.....	19

3 Planting

3.1	Seed treatments	1
3.1.1	Insecticide treatments	1
3.1.2	Fungicide treatments.....	1
3.2	Time of sowing	2
3.2.1	DAFWA/UWA trials	4
3.3	Retained seed	5
3.4	Targeted plant population.....	5
3.4.1	Determining target density	7
3.4.2	Use a higher plant density to combat weeds.....	8
3.4.3	Field establishment.....	8
3.4.4	Seed size or number of seeds per kilo	9
3.4.5	Germination	10

3.4.6	Calculating seed requirements	10
	<i>Seeding rate example tables</i>	11
3.4.7	Make a better decision next year	11
3.5	Row spacing	12
3.5.1	DAFWA trials at Binu – wide rows	12
3.5.2	Managing low plant establishment	13
3.6	Sowing depth	13
3.7	Seed placement	14
3.8	Sowing equipment	15
3.8.1	Alternative sowing techniques	16

4 Plant growth and physiology

4.1	Canola types	1
4.1.1	Conventional	1
4.1.2	Triazine-tolerant canola	1
4.1.3	Hybrids	2
4.1.4	Specialty canola: high oleic–low linolenic	2
4.1.5	Imidazolinone-tolerant canola	2
4.1.6	Condiment (Indian) mustard	2
4.1.7	Juncea canola (<i>Brassica juncea</i>)	3
4.1.8	Roundup Ready® canola	3
4.1.9	Industrial mustard	3
4.1.10	Winter types for grazing	3
4.1.11	Why know about canola development?	5
4.2	Plant growth stages	6
4.2.1	Germination and emergence (stage 0 [0.0–0.8])	6
4.2.2	Leaf production (stage 1 [1.00–1.20])	7
4.2.3	Stem elongation (stage 2 [2.00–2.20])	8
4.2.4	Flower bud development (stage 3 [3.0–3.9])	8
4.2.5	Flowering (stage 4 [4.1–4.9])	9
4.2.6	Pod development (stage 5 [5.1–5.9])	9
4.2.7	Seed development (stage 6 [6.1–6.9])	10
4.2.8	Environmental stresses impacting yield and oil content	12
4.3	The drivers of plant phenology	13
4.3.1	Temperature	13
	<i>Temperature and vegetative growth</i>	13
	<i>Development of the plant in response to temperature</i>	14
	<i>Daylength</i>	15
	<i>What does all this mean?</i>	15

5 Nutrition and fertiliser

5.1	Crop removal rates.....	1
5.2	Soil testing.....	1
5.3	Nitrogen	2
5.3.1	Estimating nitrogen requirements.....	4
	<i>Example</i>	5
5.3.2	Diagnosing nitrogen deficiency in canola.....	5
	<i>What to look for</i>	7
	<i>What else could it be?</i>	7
	<i>Where does it occur?</i>	7
	<i>Management strategies</i>	7
5.3.3	Timing of nitrogen for canola in lower rainfall areas in Western Australia	8
	<i>Key messages</i>	8
	<i>Aims</i>	8
	<i>Method</i>	9
	<i>Results</i>	9
	<i>Conclusion</i>	11
5.4	Phosphorus	11
	<i>What to look for</i>	11
	<i>What else could it be?</i>	12
	<i>Where does it occur?</i>	12
	<i>Management strategies</i>	12
	<i>How can it be monitored?</i>	12
5.4.1	Role and deficiency symptoms	12
	<i>Fertiliser placement</i>	13
	<i>Phosphorus requirements</i>	13
5.5	Sulfur	14
5.5.1	Deficiency in canola.....	15
5.6	Potassium.....	16
5.7	Micronutrients	16
5.7.1	Zinc.....	16
	<i>What to look for</i>	17
	<i>What else could it be?</i>	18
	<i>Where does it occur?</i>	18
	<i>Management strategies</i>	18
	<i>How can it be monitored?</i>	18
5.7.2	Molybdenum.....	19
	<i>Role and deficiency symptoms</i>	19
	<i>Fertiliser requirements</i>	19
5.7.3	Magnesium	19
5.7.4	Calcium.....	19
5.8	Toxicity	20
5.9	Nutrition effects on the following crop	21

6 Weed control

6.1	Key points:	1
6.1.1	Weed spectrum and herbicide resistance	2
6.2	Improving the best practice integrated weed management package: 2013 trial report	3
6.2.1	Background and aim	3
6.2.2	Trial details.....	4
6.2.3	Results.....	4
	<i>Conclusion</i>	6
6.2.4	Herbicide resistance in Australian weeds.....	7
6.2.5	Weed management in different scenarios	8
	<i>Canola following pasture</i>	8
	<i>Canola in a continuous cropping sequence</i>	9
	<i>Triazine-tolerant canola</i>	9
	<i>Imidazolinone-tolerant canola</i>	9
	<i>LibertyLink® canola</i>	10
	<i>Roundup Ready® canola</i>	10
6.2.6	Future directions.....	11
6.3	Herbicide damage	11
6.3.1	Clethodim	11

7 Insect control

7.1	Seed dressings.....	1
7.2	Integrated pest management	1
7.2.1	Area-wide management	2
7.2.2	Biological control	2
	<i>Types of biological control</i>	3
	<i>Trichogramma wasps</i>	3
	<i>Nuclear polyhedrosis virus (NPV)</i>	4
	<i>Bacillus thuringiensis</i>	4
7.3	Earth mites	5
	<i>Feeding</i>	6
7.3.1	Redlegged earth mite	7
	<i>Description</i>	7
	<i>Seasonal development</i>	7
	<i>TIMERITE® for management of redlegged earth mite</i>	7
	<i>Preventing RLEM resistance to insecticides</i>	8
	<i>How does resistance occur?</i>	8
	<i>Chemical control options</i>	8
	<i>How long does resistance last?</i>	8
	<i>Spread of resistance</i>	9
	<i>Managing resistance</i>	9
	<i>What you can do this season</i>	9
	<i>Do you suspect you have resistant RLEM?</i>	10

7.3.2	Blue oat mite	10
	<i>Description</i>	10
	<i>Seasonal development</i>	11
7.4	Lucerne flea	11
7.5	Slugs	11
7.6	Diamondback moth	11
7.7	Aphids	12
7.7.1	Description	12
7.7.2	How crop infestations start	14
7.7.3	Feeding damage.....	15
7.7.4	Results of feeding-damage trials.....	15
7.7.5	Yield loss from viruses.....	15
7.7.6	Monitoring for aphids	16
7.7.7	Look for the beneficials	16
7.7.8	What parasitic wasps look like	18
7.7.9	Threshold for aphids.....	18
7.7.10	Encourage beneficials	18
7.7.11	Cultural controls	19
7.7.12	Chemical control.....	19
7.7.13	Green peach aphids and resistance.....	19
7.8	Management of bronzed field beetle—a pest of canola in the south of Western Australia	20
	<i>Distribution</i>	20
	<i>Description</i>	20
	<i>Lifecycle</i>	21
7.9	<i>Helicoverpa</i>	21
	<i>Seasonal biology</i>	22
	<i>Scout crops regularly</i>	22
7.9.1	Native budworm	22
7.9.2	Descriptions of eggs and caterpillars.....	23
	<i>Eggs</i>	23
	<i>Caterpillars</i>	23
	<i>Egg laying</i>	23
7.10	Diagnosing weevils in canola	23
7.10.1	What to look for	24
7.10.2	What else could it be?	25
7.10.3	Where did it come from?	25
7.10.4	Management strategies.....	26
7.10.5	How can it be monitored?	26
7.11	Diagnosing cabbage white butterfly.....	26
7.11.1	What to look for	26
7.11.2	What else could it be?	27

7.11.3 Management strategies	27
7.12 Vegetable beetle (<i>Gonocephalum missellum</i>)	27
7.12.1 Description	27
<i>Adult</i>	27
<i>Larvae</i>	27
7.12.2 Damage	28
<i>Adult</i>	28
<i>Larvae</i>	28
7.13 Other soil pests	28

8 Nematode management

8.1 Root-lesion nematodes	1
8.2 RLN in Western Australia.....	2
8.2.1 <i>Pratylenchus quasitereoides</i> —WA's home-grown RLN and its unique impacts on broadacre crops	2
<i>Key messages</i>	2
<i>Aims</i>	3
<i>Methods</i>	4
<i>Results and discussion</i>	4
<i>Conclusions</i>	6
8.3 Impact of crop varieties on RLN multiplication	7
8.3.1 Take-home messages.....	7
8.3.2 Soil testing.....	8
8.3.3 Management of RLN	8
<i>Resistance differences between winter crops</i>	9

9 Diseases

9.1 Blackleg.....	1
9.1.1 Four steps to beating blackleg	3
<i>Step 1. Determine your farm's risk</i>	3
<i>Step 2. Determine each crop's blackleg severity in spring</i>	3
<i>Step 3. Management practices can reduce the risk of blackleg infection</i>	4
<i>Step 4. Blackleg resistance groups</i>	5
9.1.2 Blackleg rating	6
9.2 Sclerotinia stem rot	7
9.2.1 Managing Sclerotinia stem rot in canola in Western Australia	8
<i>Rotation</i>	8
<i>Symptoms</i>	8
<i>Assessment of Sclerotinia risk</i>	12
<i>Cause and disease cycle</i>	13
<i>Hosts</i>	15
<i>Tillage</i>	15
<i>Fungicides</i>	15
<i>Varieties</i>	17
<i>Assessment of flowering stages in canola</i>	17

	<i>Current research</i>	17
	<i>Incidence in Western Australia</i>	17
	<i>Variety resistance</i>	18
	<i>Efficacy and economics of fungicide applications</i>	18
9.3	Clubroot in canola.....	19
9.4	<i>Rhizoctonia</i> , damping-off.....	19
9.5	Downy mildew, powdery mildew.....	20
9.6	White leaf spot.....	20
9.7	Alternaria leaf and pod spot.....	20
9.8	Managing viruses.....	21
	<i>What to look for</i>	21

10 Plant growth regulators and canopy management

11 Crop desiccation/spray out

12 Harvest

12.1	Windrowing.....	1
12.1.1	When to windrow.....	3
12.2	Direct harvest.....	5
12.2.1	Comparison of canola varieties with delayed direct harvest, Gibson, Western Australia.....	6
	<i>Background and aim</i>	6
	<i>Trial and treatment details</i>	6
	<i>Results and conclusions</i>	7
12.3	Comparing windrowing and direct heading.....	8
12.3.1	Windrowing.....	8
	<i>Timing</i>	9
12.3.2	Direct heading.....	9
	<i>Timing</i>	10
12.3.3	Desiccation followed by direct heading.....	10
	<i>Timing</i>	10
12.4	Swathed canola on raised beds.....	11
12.5	Wet harvest issues and management.....	12
12.6	Receival standards.....	12
	<i>Certified seed</i>	13
12.7	On-farm segregation of canola varieties.....	13
12.7.1	Processes to segregate canola varieties.....	13
12.7.2	Farmer-saved canola seed.....	14
12.7.3	Machinery hygiene.....	14
12.7.4	Crop management.....	14
12.7.5	Volunteers.....	15
12.7.6	Record keeping.....	15

12.8	Weed management at harvest	15
------	----------------------------------	----

13 Storage

13.1	Canola storage at a glance	1
13.2	Storing oilseeds	2
13.3	Seed quality and moisture content at storage	2
13.4	Types of storage	3
13.5	Hygiene—structural treatment	4
13.6	Aeration	5
13.6.1	Aeration cooling	5
13.6.2	Automatic controllers	6
13.6.3	Operation of aeration fans	6
13.6.4	Aeration drying	6
13.6.5	Heated air drying	7
13.6.6	Fire risk	8
13.7	Insect pest control	8
13.8	Further reading	10

14 Environmental issues

	<i>GRDC's new approach to frost</i>	1
14.1	Frost	3
14.1.1	Frost damage in crops—where to from here?	6
	<i>What causes frost?</i>	6
	<i>Frost effect on the plant</i>	7
	<i>Are frosts becoming more frequent?</i>	7
	<i>Key management strategies</i>	8
	<i>The importance of sowing time and flowering dates</i>	9
14.1.2	Issues that can be confused with frost damage	10
14.2	Waterlogging and flooding	12
14.2.1	Symptoms of waterlogging	12
14.2.2	Effect on yield	12
14.2.3	Germination	13
14.2.4	Seedfill	13

15 Marketing

15.1	Selling principles	1
15.1.1	Be prepared	1
	<i>When to sell</i>	2
	<i>How to sell</i>	2
15.1.2	Establishing the business risk profile—when to sell	2
	<i>Production risk profile of the farm</i>	3
	<i>Farm costs in their entirety, variable and fixed costs (establishing a target price)</i>	3
	<i>Income requirements</i>	4

Summary.....	5
15.1.3 Managing your price—how to sell.....	5
<i>Methods of price management</i>	5
Summary.....	7
15.1.4 Ensuring access to markets	8
<i>Storage and logistics</i>	8
<i>Cost of carrying grain</i>	9
Summary.....	10
15.1.5 Executing tonnes into cash	10
<i>Set up the toolbox</i>	10
<i>How to sell for cash</i>	11
<i>Counterparty risk</i>	14
<i>Relative commodity values</i>	15
<i>Contract allocation</i>	16
<i>Read market signals</i>	16
Summary.....	16
15.2 Western canola—market dynamics and execution.....	17
15.2.1 Price determinants for Western Australian canola	17
15.2.2 Ensuring market access for WA canola.....	18
15.2.3 Executing tonnes into cash for WA canola.....	19
15.2.4 Risk-management tools available for WA canola.....	21
