

# Summer Pulse Field Walk

**Join us at our combined DAF pigeonpea & mungbean trial site at Warra to inspect new experimental and released lines.**

DAF and GRDC are investing in the development of new mungbean cultivars. Interested growers and agronomists can inspect our two new lines alongside existing commercial cultivars. Seed of the new lines will be available for sowing in summer 2025.

DAF and GRDC are also investing in the evaluation of new pigeonpea experimental lines at field sites in summer 2023-24. Interested growers and agronomists can see experimental lines of pigeonpea in the field and understand the opportunities and issues with growing pigeonpea as a new summer pulse crop.

Speakers: DAF Research Scientists Merrill Ryan and Bruce Winter

**Date:**  
**Friday 8 March 2024**

**Time:**  
**9.00am – 10.30am**

**Address:**  
**Wade Bidstrup's  
property, 0.5km east  
of Ehlma Boundary  
Rd and Haystack Rd  
intersection, Warra**
