What's New

Introduction

A.1	Crop overview.....	xxii
A.1.1	History of canola	xxii
A.1.2	Canola in Australia.....	xxiii
A.1.3	Canola in the northern region	xxiv
A.1.4	Hybrids.....	xxv
A.1.5	Domestic production.....	xxv

1 Planning/Paddock preparation

1.1	Paddock selection.....	1
1.1.1	Soil types	2
	<i>Hardpans</i>	2
	<i>Crusting soils</i>	2
	<i>Acid soils</i>	2
	<i>Sodic subsoils</i>	2
1.2	Paddock rotations and history.....	2
1.2.1	Canola as a break crop	3
1.3	Fallow weed control.....	4
	<i>Double-knock strategies</i>	5
	<i>Important weeds in northern cropping systems</i>	5
	<i>Awnless banyard grass</i>	6
	<i>Flaxleaf fleabane</i>	8
	<i>Feathertop Rhodes grass</i>	10
	<i>Windmill grass</i>	11
1.4	Herbicide plant-back periods.....	12
1.5	Seedbed requirements.....	13
1.6	Soil moisture.....	14
1.6.1	Moisture stress during rosette formation and elongation	15
1.7	Yield and targets	16
1.7.1	Seasonal outlook	16
1.7.2	Fallow moisture efficiency	16
1.7.3	Nitrogen- and Water Use Efficiency	17
1.7.4	Estimating maximum yield per unit water use by location and nitrogen	17
	<i>Step 1</i>	17
	<i>Step 2</i>	18

Step 3.....	18
1.8 Potential disease problems	19
1.9 Nematode status of paddock.....	20
2 Pre-planting	
2.1 Varietal performance and ratings yield	1
2.1.1 Maturity.....	1
2.1.2 Yielding ability.....	2
2.1.3 Oil	5
2.1.4 Seed meal	6
2.2 Varieties for NSW	6
2.2.1 Conventional varieties	6
2.2.2 Triazine-tolerant varieties	6
2.2.3 Clearfield® (imidazolinone-tolerant) varieties	8
2.2.4 Roundup Ready® varieties	9
2.2.5 Roundup Ready®–triazine-tolerant varieties	10
2.2.6 Juncea canola (<i>Brassica juncea</i>)	11
2.3 Planting seed quality	11
2.3.1 Seed size.....	11
2.3.2 Seed germination and vigour	12
<i>Harvest timing</i>	13
<i>Seed chlorophyll</i>	13
<i>Seed handling</i>	13
2.3.3 Seed storage.....	13
2.3.4 Safe rates of fertiliser sown with the seed	14
3 Planting	
3.1 Seed treatments	1
3.1.1 Insecticide treatments	1
3.1.2 Fungicide treatments	1
3.2 Time of sowing	1
3.2.1 Northern NSW.....	5
3.2.2 Central and southern NSW.....	5
3.2.3 Southern NSW irrigation areas.....	5
3.3 NSW DPI research. Improving canola profit in central NSW: effect of time of sowing and variety choice	6
3.4 Targeted plant population	13
3.4.1 Calculating seed requirements	14
3.4.2 Row spacing	14
3.5 Sowing depth.....	15
3.6 Sowing equipment.....	19
3.6.1 Alternate sowing techniques	20

4 Plant growth and physiology

4.1	Canola types	1
4.1.1	Conventional	1
4.1.2	Triazine-tolerant canola	1
4.1.3	Hybrids	1
4.1.4	Specialty canola – high oleic/low linolenic (HOLL)	2
4.1.5	IMI-tolerant canola	2
4.1.6	Condiment (Indian) mustard	2
4.1.7	Junecea canola – <i>Brassica juncea</i>	2
4.1.8	Roundup Ready®	3
4.1.9	Industrial mustard	3
4.1.10	Winter types for grazing (dual-purpose canola)	3
4.2	Why know about canola development?	5
4.3	Plant physiology and the stages of plant growth	6
4.3.1	Vernalisation	7
4.4	Plant growth stages	8
4.4.1	Germination and emergence (stage 0 [0.0–0.8])	8
4.4.2	Leaf production (stage 1 [1.00–1.20])	8
4.4.3	Stem elongation (stage 2 [2.00–2.20])	8
4.4.4	Flower bud development (stage 3 [3.0–3.9])	9
4.4.5	Flowering (stage 4 [4.1–4.9])	9
4.4.6	Pod development (stage 5 [5.1–5.9])	10
4.4.7	Seed development (stage 6 [6.1–6.9])	10
4.4.8	Environmental stresses impacting yield and oil content	13

5 Nutrition and fertiliser

5.1	Declining soil fertility	1
5.1.1	Soil organic matter	1
5.1.2	Current situation	4
5.1.3	Options for reversing the decline in soil organic matter	5
	<i>Impact of fertiliser N inputs on soil</i>	7
5.2	New nutrition thinking for the northern region	7
5.3	Crop removal rates	8
5.4	Soil testing	8
5.5	Nitrogen	9
5.5.1	Estimating nitrogen requirements	11
	<i>Example</i>	11
5.5.3	Diagnosing nitrogen deficiency in canola	15
	<i>What to look for</i>	16
	<i>What else could it be?</i>	16
	<i>Where does it occur?</i>	16
	<i>Management strategies</i>	16

How can it be monitored?17

5.6 Phosphorus.....17

 5.6.1 Role and deficiency symptoms..... 18

Fertiliser placement.....19

Phosphorus requirements19

5.7 Sulfur20

 5.7.1 A new paradigm in sulfur thinking 21

Reducing rates of sulfur fertiliser.....22

 5.7.2 Nitrogen versus sulfur canola trials..... 23

5.8 Potassium 33

5.9 Micronutrients.....34

 5.9.1 Zinc34

Deficiency symptoms.....34

Fertiliser strategies34

 5.9.2 Molybdenum..... 35

Role and deficiency symptoms.....35

Fertiliser requirements.....35

 5.9.3 Magnesium 35

 5.9.4 Calcium 36

5.10 Toxicity.....36

5.11 Nutrition effects on following crop 37

6 Weed control

6.1 General weed management..... 1

 6.1.1 Weed spectrum and herbicide resistance.....2

 6.1.2 Herbicide resistance in Australian weeds 3

 6.1.3 Weed management in differing scenarios 4

Canola in a continuous cropping sequence.....4

Triazine Tolerant (TT) canola5

Imidazolinone Tolerant (IT) canola.....5

Liberty Link® canola.....5

Roundup Ready® canola5

 6.1.4 Future directions6

Microwave technology for weed management.....6

6.2 Clethodim damage.....7

6.3 Clethodim resistance in annual ryegrass.....7

 6.3.1 Hybrid canola and pre-emergent herbicides for grass weed control in wheat.....8

7 Insect control

7.1 Integrated pest management 1

 7.1.1 Area-wide management2

 7.1.2 Biological control2

Types of biological control3

	<i>Trichogramma</i> wasps	4
	Nuclear polyhedrosis virus (NPV)	4
	<i>Bacillus thuringiensis</i>	4
7.2	Earth mites.....	5
	Feeding.....	6
7.2.1	Redlegged earth mite	7
	Description	7
	Seasonal development	7
	TIMERITE® for management of redlegged earth mite	7
7.2.2	Blue oat mite	7
	Description	8
	Seasonal development	8
7.3	Lucerne flea	8
7.4	Slugs	8
7.5	Diamondback moth	8
7.6	Aphids	9
7.7	Rutherglen bug.....	15
7.8	<i>Helicoverpa</i>	15
	Seasonal biology	16
	Scout crops regularly	16
	Spray eggs and very small caterpillars, particularly of the corn earworm	17
7.8.1	Corn earworm	17
7.8.2	Native budworm	17
7.8.3	Descriptions of corn earworm and native budworm eggs and caterpillars	17
	Eggs	17
	Caterpillars	17
	Egg laying	17
7.8.4	Resistance-management strategy	18
7.8.5	Preliminary threshold for <i>Helicoverpa</i> in canola	19
7.9	Other soil pests	20
8	Nematode management	
8.1	Background	1
8.2	Impact of crop varieties on RLN multiplication	2
8.3	Management of RLN.....	4
	Resistance differences between winter crops.....	4
9	Diseases	
9.1	Major canola diseases.....	1
9.2	Blackleg.....	3
9.2.1	Steps to beating blackleg	5
	Step 1. Determine your farm's risk.....	5
	Step 2. Determine each crop's blackleg severity in spring	5
	Step 3. Management practices can reduce the risk of blackleg infection.....	6

<i>Step 4. Blackleg resistance groups</i>	7
9.2.2 Blackleg rating	8
9.3 Sclerotinia stem rot.....	8
9.4 Viruses.....	11
10 Plant growth regulators and canopy management	
11 Crop desiccation/spray out	
12 Harvest	
12.1 Windrowing	1
<i>Timing</i>	4
12.1.1 When to windrow	4
12.2 Direct heading	6
<i>Timing</i>	6
12.3 Desiccation followed by direct heading.....	9
<i>Timing</i>	9
12.3.1 Canola desiccation and direct heading and PodGuard canola	10
12.4 Wet harvest issues and management	10
12.5 Receival standards.....	10
13 Storage	
13.1 Canola storage at a glance.....	1
13.2 Storing oilseeds	2
13.3 Seed quality and moisture content at storage	2
13.4 Types of storage	3
13.5 Hygiene—structural treatment	4
13.6 Aeration	5
13.6.1 Aeration cooling	5
13.6.2 Automatic controllers.....	6
13.6.3 Operation of aeration fans.....	6
13.6.4 Aeration drying.....	6
13.6.5 Heated air drying	7
13.6.6 Fire risk	7
13.7 Insect pest control	8
13.7.1 Phosphine fumigation in large silos	9
14 Environmental issues	
14.1 Frost	1
14.1.1 Risk management for frost	3
14.1.2 The changing nature of frost in Australia	4
14.1.3 Issues that can be confused with frost damage.....	4
14.2 Waterlogging and flooding	6
14.2.1 Symptoms of waterlogging	6

14.2.2 Effect on yield 6

14.2.3 Germination 7

14.2.4 Seedfill 7

15 Marketing

15.1 Selling principles 2

15.1.1 Be prepared..... 2

When to sell..... 2

How to sell..... 2

15.1.2 Establish the business risk profile 3

Production risk profile of the farm 4

Establishing a target price 5

Income requirements..... 6

15.1.3 Managing your price 7

Methods of price management 8

15.1.4 Ensuring access to markets 10

Storage and logistics 11

Cost of holding grain..... 12

15.1.5 Converting tonnes into cash 14

Set up the toolbox..... 14

How to sell for cash..... 14

Counterparty risk..... 17

Relative values..... 17

Read market signals..... 19

15.2 Northern canola: market dynamics and execution 19

15.2.1 Price determinants for northern canola 19

15.2.2 Ensuring market access for northern canola 21

15.2.3 Converting tonnes into cash for northern canola..... 22

15.2.4 Risk management tools available for northern canola..... 23
