

GRAINS RESEARCH UPDATE

Cleve Sporting Bodies Club, South Terrace

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

► **Developing pulse agronomy foundations**

With lentil plantings on the rise its time to build some strong pulse agronomy foundations. Sarah provides an update on the impacts of the 2022 season and mild summer on the nutritional requirements of lentils.

*Sarah Day,
SARDI*

► **Weighing up the costs and benefits of soil amelioration**

Discover how the economics of subsoil amelioration stacks up on a variety of soil types. Royce outlines the key considerations for growers to achieve the best bang for buck when ameliorating soils.

*Royce Pitchford,
Pinion Advisory*

► **Tackling pulse disease challenges**

Add a few new tools to your toolbox when tackling pulse diseases this year by implementing an integrated disease management strategy. Sara provides an update on the current state of pulse diseases and the varietal opportunities on the horizon for growers.

*Sara Blake,
SARDI*

► **Seasonal forecasts and the implications for growers**

With last years late harvest what's in store for the rest of this season? Dane provides a climate outlook and how it will impact on farm decision making leading into harvest.

*Dane Thomas
SARDI Climate
Applications*

► **The impacts of the 2022 season on nitrogen and soil carbon**

Discover how the 2022 season has impacted this year's soil nitrogen and carbon levels. Mark's presentation will showcase nutritional implications and the opportunities for growers to improve soil carbon levels on sandy soils.

*Mark Farrell,
CSIRO*
