

Winter Planter Setup Workshop

WINTER PLANTER BAR BASICS - AIR CART SETUP - WINTER CROP ESTABLISHMENT

NORTHERN REGION
APRIL 2024

Mullaley

Venue: "Werilto", 11699 Oxley Highway, Mullaley 2379

5th April
8.15AM – 3.00PM

Grain growers, planting contractors and industry stakeholders are invited to participate in one of a series of GRDC 2024 Winter Planter Setup Workshops.

The workshops, hosted by AMPS Research, will include a range of local winter planter bars and air carts. Hear from independent and industry experts on effective planter bar and air cart set up to improve winter crop establishment, crop establishment fundamentals, adjusting to local conditions, benchmarking and financial considerations, as well as keeping safe during planting.

PRESENTERS

Brett Asphar - Independent Specialist

Matt Gardner - AMPS Research

Kim Bowman - AgriPath

Ian Porch - NSW Farmers

Paul McIntosh - WeedSmart & Pulse Australia Agronomy

Industry representatives - Planter bars & Air carts

Program
