

North West Local Land Services

Integrated weed management webinar Wednesday, 11 November 2020, 10 am

Join North West Local Services and GRDC for an informative webinar to discuss integrated weed management tactics and strategies.

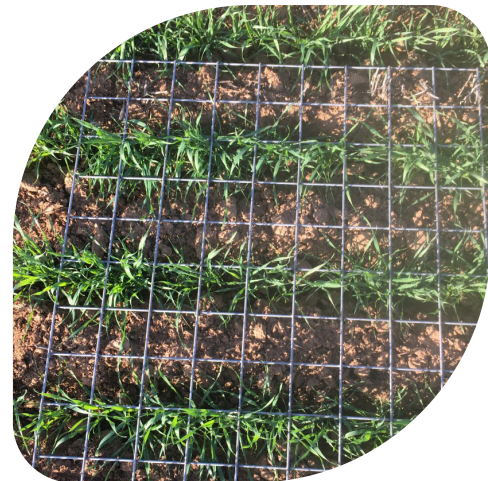

Integrated weed management (IWM) tactics and strategies will provide support for farmers battling with herbicide resistant and hard to kill weeds. North West Local Services has worked with farmers, advisors and the GRDC to demonstrate the advantages of IWM.

As part of this we are running a webinar on strategies to assist in the management of herbicide resistant and hard to kill weeds.

The informative online event will discuss:

- Strategies to assist in the management of herbicide resistant and hard to kill weeds
- Toward effective management of feathertop Rhodes grass
- Overview of cotton weed survey and resistance status plus emerging weed problems.

Our panel of expert guest speakers include NSW Department of Primary Industries (DPI) Principal Research Scientist, Dr Hanwen Wu, NSW DPI Agronomist, Eric Koetz alongside North West Local Land Services Senior Land Services Officer Cropping, Bill Manning.
